MASENO UNIVERSITY

School of Computing and Informatics

Department of Information Technology

Form **PAF4**: Year IV Final Software Project (Panel Assessment)

Student's Names: _____

Student Reg No: _____

Title of the Project: _____

STUDENT REG. NO:_____ **NAMES:**_____			
ITEM	**DETAIL DESCRIPTION**	**Maximum Score**	**Actual Score**
Title	Appropriate, descriptive & aligned to the overall objective	0.5	
Declaration	As prescribed in the guidelines	0.5	
Abstract (Should capture)	*Background*	0.5	
	Problem statement	0.5	
	Overall objective	0.5	
	Specific objectives	0.5	
	Methodology (Selected approach)	0.5	
	Functionalities achieved	2.0	
Acknowledgment	Appropriate acknowledgement provided	0.5	
Table of Contents	Clearly outlined & informative	0.5	
List of Abbreviations	Abbreviations & full meaning	0.5	
Definition of Terms	Terms and their meaning as used in project	0.5	
List of Tables/Figures	Clearly labeled Tables & Figures	0.5	
	Sub-Total Score	**8.0**	
CHAPTER ONE: INTRODUCTION			
Background	Background should be at least one page, give sufficient knowledge of the project area & lay a foundation for the problem statement	1.0	
Problem Statement	Precise and concise (no ambiguity) to inform the proposed solution (Clear project gap)	2.0	
Overall Objective	Stated as per traditional convention, with key verb, covers the problem and aligned to title.	2.0	
Specific Objectives	Should be SMART and inter-linked (realization of one should lay a foundation for the next)	2.0	
Scope and Limitations	Should be aligned to the specific objectives/problems and clearly state what the project addresses and what it does not address	2.0	
Significance of the Project	Explain the significance in one short paragraph.	2.0	
	Sub-Total Score	**11.0**	

DEPARTMENT OF INFORMATION TECHNOLOGY

CHAPTER TWO: LITERATURE REVIEW			
Organization & Flow		0.5	
Review of related works		0.5	
Clarity of Gap		0.5	
In-text Citation		0.5	
	Sub-Total Score	**2.0**	
CHAPTER THREE: PROJECT METHODOLOGY			
Requirements (Gathering & Analysis)	Identify and justify the tools to be used in requirements determination	0.5	
	Approach to analysis of requirements	0.5	
Design Tools & Process	Precise description and justification of the tools to be used in the design of the solution. (*No actual DFD diagrams/Artefacts required*)	1.0	
	Sub-Total Score	**2.0**	
CHAPTER FOUR: SOLUTION ANALYSIS & SPECIFICATION			
Requirements Determination	Relevant requirements identified and documented	1.0	
Requirements Analysis	Solution modelling artefacts well documented, in adherence to laid down procedures and practices (e.g. actual DFDs, Use Cases etc…)	5.0	
	Formulate & document Solution Specifications	0.5	
Requirements Specifications	Specification of development tools and justification	0.5	
	Sub-Total Score	**7.0**	
CHAPTER FIVE: SOLUTION DESIGN			
Input Design	Forms design	2.0	
	Data Coding	1.0	
	Input Masks/ Validation	2.0	
File/database/architecture design	Data/ system modelling and associated artefacts documented (actual ERDs, Normalization, data dictionaries etc.)	5.0	
Output Design	Adherence to HCI principles of interface design	2.0	
	Report design	2.0	
	Relevance of the reports	1.0	
	Sub-Total Score	**15.0**	
CHAPTER SIX: SOLUTION IMPLEMENTATION AND RECOMMENDATIONS			
Solution/Prototype Functionalities	Description of functionalities in the prototype with accompanying narratives & images	4.0	
	Demonstration of completeness of various prototype functionalities	8.0	
Security Principles	Demonstration of Security Features	2.0	
Testing & associated Procedures	Description of testing procedures, tests and test levels (Unit, module etc.)	2.0	
Solution documentation	User help manual and related documentation	2.0	

DEPARTMENT OF INFORMATION TECHNOLOGY

Presentation & Demonstration	Originality, Ownership and Relevance	3.0	
Conclusion & Recommendations	Overall Quality of the prototype	1.0	
	Suggestion for further work	1.0	
	Sub-Total Score	**23.0**	
LIST OF REFERENCES, APPENDICES & OTHER ITEMS			
Citations & References	Proper citation & complete list of references.	1.0	
Formatting, Language, Organization	Formatting, organization of heading & sub-headings (use of bold & italics)	1.0	
	Sub-Total Score	**2.0**	
	Grand Total	**70.0**	

Examiners specific/overall comments on the project

Panel Examiner's Name: _____

Signature: _____ **Date:** _____/_____/_____
